All measurements should be taken with a tape measure.

The tape measure should not be tight, it should sit around the area as dictated below loose enough so that it does not grab the body, and just tight enough that it does not fall down.

BUST

Is the measurement taken around the body at bust line which is dictated by bust point (or nipple).

WAIST

Is the measurement taken around the body at waist line which is the narrowest part of the torso.

HIGH HIP

Is the measurement taken around the body at one's hip bones – the circumference of the body where OPUS 9 pants sit.

HIP

Is the widest part of the body (bottom).
